The graphic image that has been developed over 25 years of the Quinzena de Dança de Almada is the theme of this exhibition, honoring thus the artists/designers with whom we have collaborated.

Over the years, several artists have contributed to this festival, translating our message into something visual. In the first phase, the creativity of the collective formed by António Folgado, António Castilho and Pedro Monteiro, was followed by the technical rigor of the TUNA company. Then, for many years, it was João Vinagre who, with his artistic sensibility, created our visual image. Finally, in the last three editions, young Catarina Marques has shown her ability to respond to our communication needs, combining technique, aesthetics and originality.
